

QUALITY POLICY

Apex Energy's Quality Management System is designed and developed to meet the requirements of ISO 9001, API Spec Q1 & API Monogram Programs for the design, manufacture and service of Oilfield Equipment.

We at Apex Energy are committed to continually improve the effectiveness of our Quality Management System, provide reliable products and services to achieve our Quality Objectives and be one of the leading service providers for Oilfield Equipment in the MENA region. We are committed to achieve this by following the below guidelines:

- ◆ Establish, implement, maintain and commit to comply with applicable requirements, including, legal & other requirements and continually improve our Quality Management System and its effectiveness in line with the strategic direction of the company and our customer requirements.
- ◆ Ensure that this Quality Policy is appropriate to the purpose and context of the organization, including the nature, and related quality risks of Apex Energy's business operations.
- ◆ Cascade Quality policy, develop framework for Quality Objectives and targets through discussion, consultation and communication for our business processes and develop suitable systems to achieve these objectives and targets.
- ◆ Review this Quality Policy during annual management review meetings to ensure that it remains relevant & appropriate for continued suitability to the scope and thereby enhancing its performance.
- ◆ Plan, implement and verify Quality Management System related training for the continual improvement of all our employees.
- ◆ Ensure the timely delivery of all products and services with quality that satisfies our customer requirements.
